Experts Reveal the Gifts Sure to Please Any Beauty-Obsessed Gal

The AskMen **Acquire** team thoroughly researches & reviews the best gear, services and staples for life.

Women certainly aren't the only ones who are hard to shop for, but when it comes to something like makeup or skincare, picking the right gift can be a little extra challenging. It's always a good idea to ask someone who knows what they're talking about. Someone who really walks the beauty walk and talks the beauty talk. But that is easier said than done.

Don't you guys out there worry, though. We have gone out and done the leg work for you. That means we found beauty-obsessed women who are in the trenches: the trendsetters, tastemakers and influencers who are driving the decisions made by those beauty-obsessed in your lives. From editors at your girlfriend's favorite sites to buyers at their favorite stores, our panel of experts picked out the items that are guaranteed to make the beauty-obsessed woman in your life happy.

Susanne Kaufmann Oil Bath for the Senses

For the bath aficionado in your life, go big. And this Susanne Kaufmann Oil Bath for the Senses is about as big as it gets (I mean, she could basically use it as a dumbbell for an impromptu workout, too). In celebration of the brand's 15th anniversary, they supersized this cult-favorite oil, perfect for the lady in your life that considers a nighttime soak an everyday luxury.

The Nue Co. Functional Fragrance

It was love at first scent when I met **The Nue Co. Functional Fragrance**. This is for the beauty-obsessed woman that's also stressed, as the fragrance is scientifically shown to calm you down immediately (magic, I know!). It also somehow smells like a more-interesting, smokier Santal 33 (there, I said it!).

Pat McGrath Labs

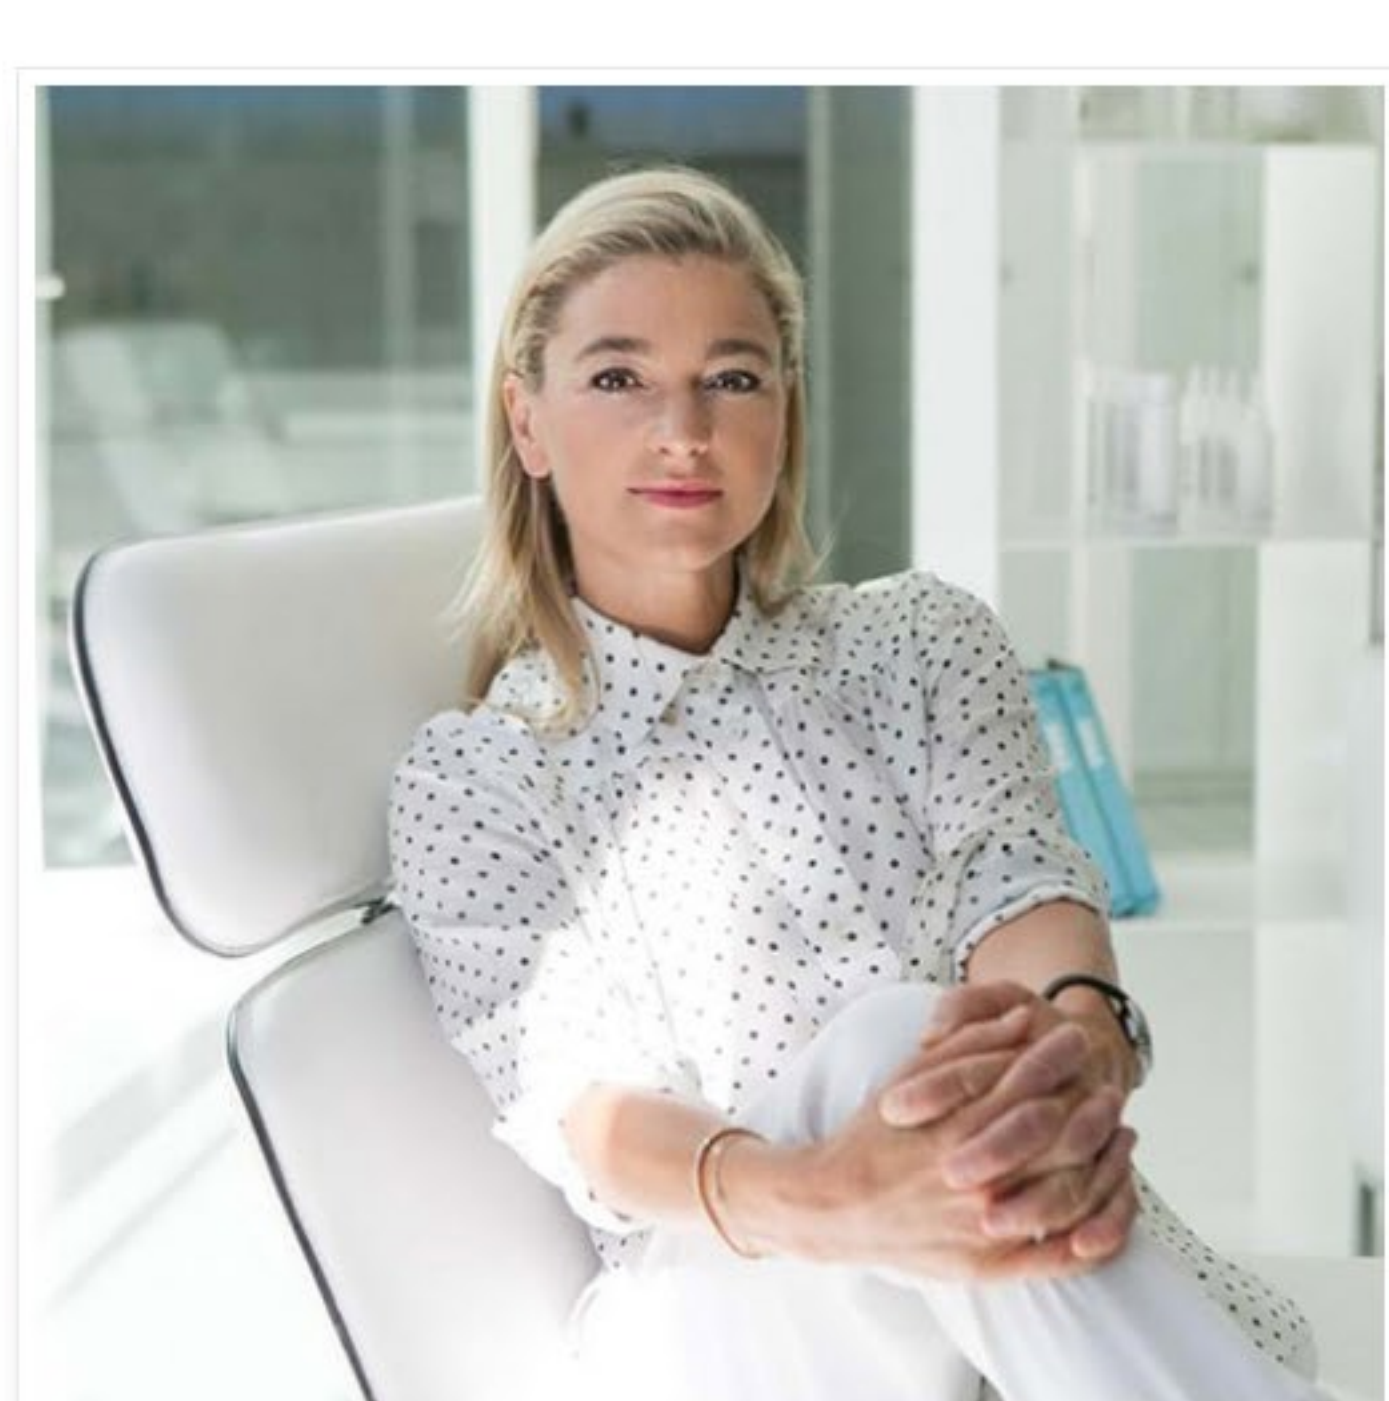

If makeup is her true passion, show her you care via the cultiest of cult makeup lines around, Pat McGrath. The new Lip Fetish Lip Balms are super easy to wear and she'll love them (they go on super sheer, so she can wear any shade), or if she loves eye makeup, you can't go wrong with the new Mothership V Eyeshadow Palette.

Susanne Kaufmann, Founder, Susanne Kaufmann Natural Skincare Cosmetics

Her namesake skincare line based in the Austrian Alps is what Instagram bathrooms dream of. Adding to that, her all-natural, spa-quality products actually work too.
